

Increase Student Engagement with Adaptable Classroom Furniture

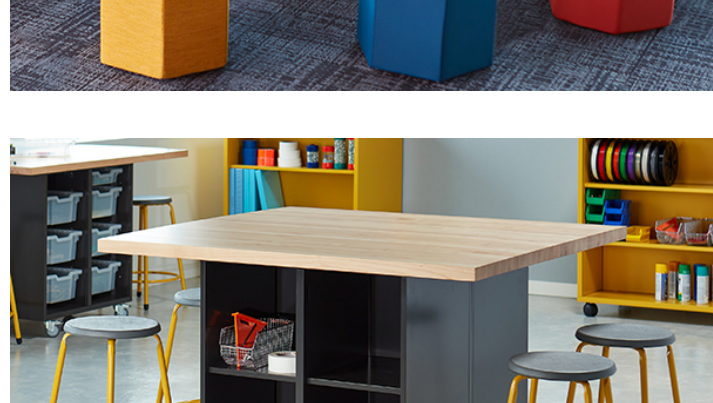

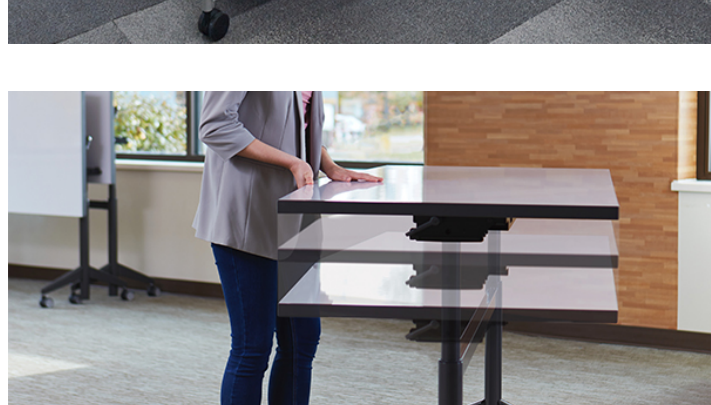

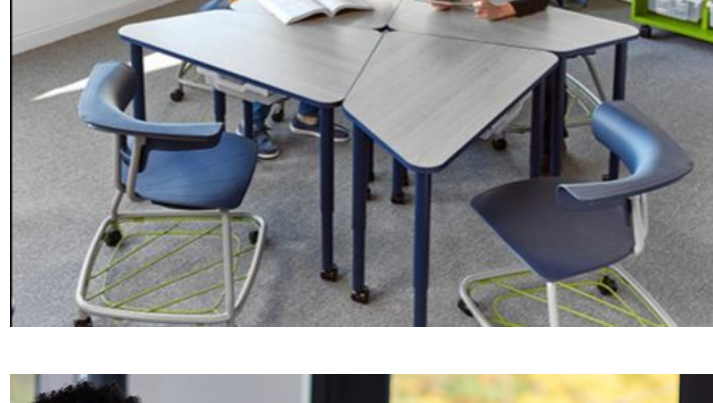

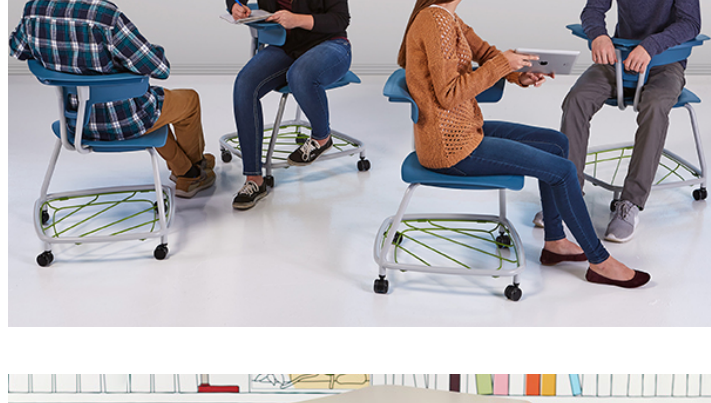

Long gone are the days of children sitting in awkward, uncomfortable chairs and desks for 8 hours a day. Studies have proven that comfort and mobility support cognitive development and result in improved learning and retention among students of all ages. The Pizzuto Group and KI furniture solutions not only support comfort and mobility, but also open the door to a wide variety of learning and teaching styles, accommodating everything from creative makerspace projects to breakout groups and full-room lectures.

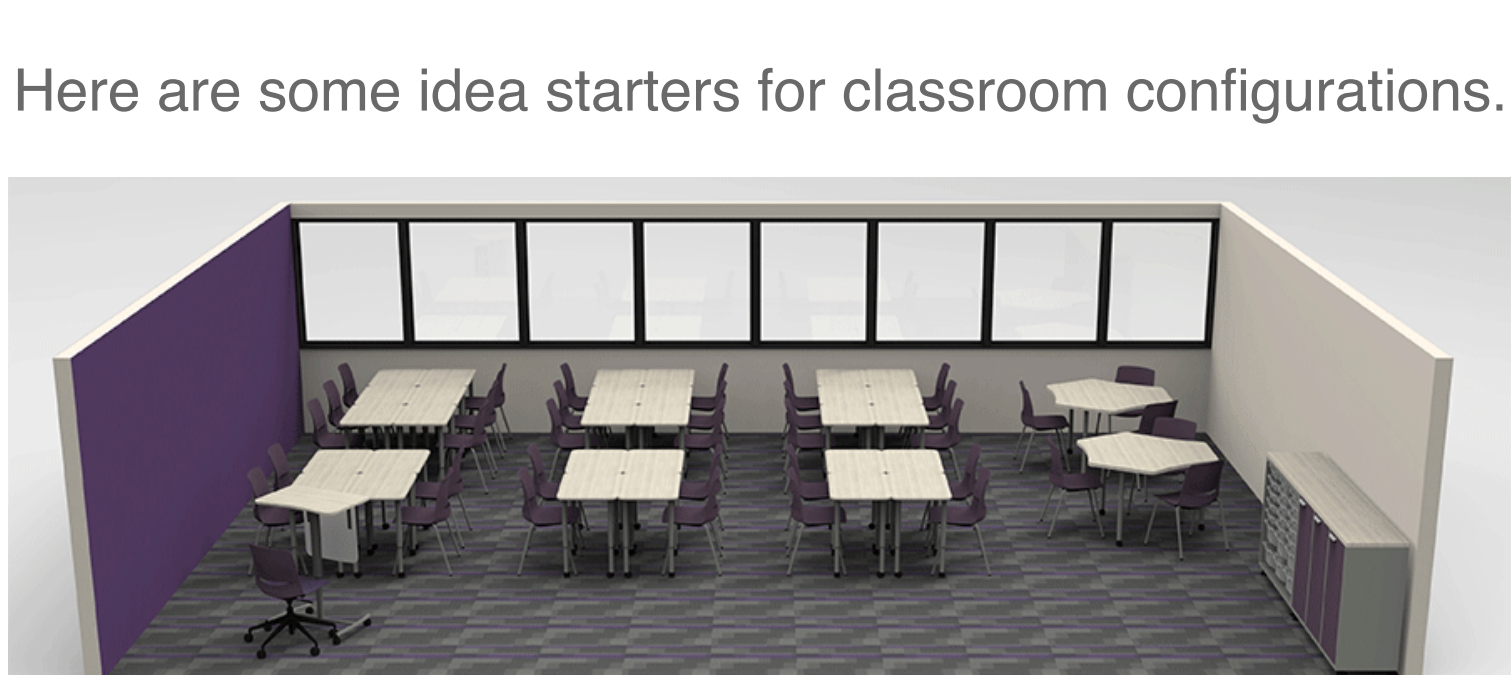

Adaptive Furniture for Elementary Schools

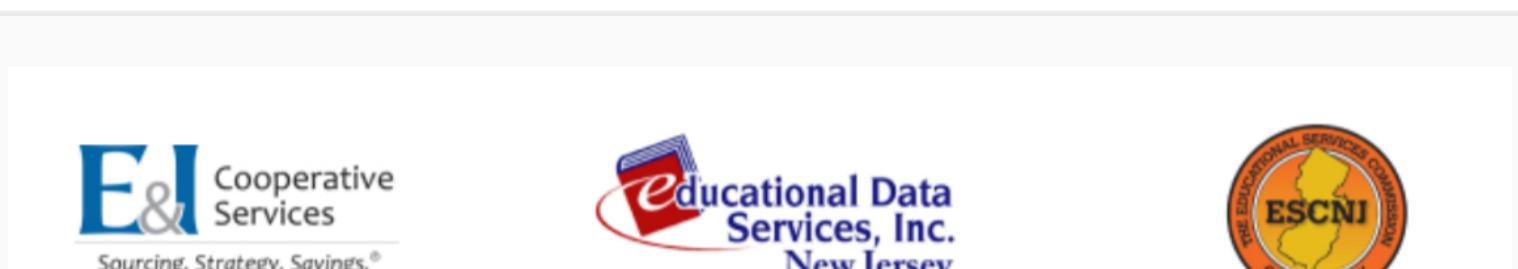

Adaptive Furniture for Middle & High Schools

Here are some idea starters for classroom configurations.

Give students the freedom to choose how they learn best and bring back the joy of experiential learning to the classroom. For more information visit our website at www.thepizzutogroup.com, or call us today to set up a meeting in your district! **The Pizzuto Group is an Authorized dealer of KI Furniture, offering all products on approved State cooperatives.**
